FEEDBACK REVIEW COMMITTEE - POLICY

PREAMBLE

The college is using the Students, Faculty, Employer, Alumni and Parents feedback as a base to make improvements in the existing system after reviewing and analyzing it carefully. It is proposed to form Feedback Review committee to analyze the feedbacks collected from stakeholders, give report and suggest necessary actions to be taken to improve further.

OBJECTIVES OF COMMITTEE:

1. To assess the success of academic provision in relation to the expectations of student regarding curriculum.
2. To provide feedback to faculty members in order to improve delivery and content of the study subjects.
3. To significantly increase alumni interaction with the institution.
4. Fostering and keeping alive loyalty to the institution and creating concern for its welfare.
5. Inculcate exchange of ideas between alumni and students.
6. To provide students with the opportunity to comment on the quality of their learning experiences.
7. To assess the satisfaction of the parents with the curriculum and facilities in the college.
8. To find out the lacking points from the employers for betterment in future

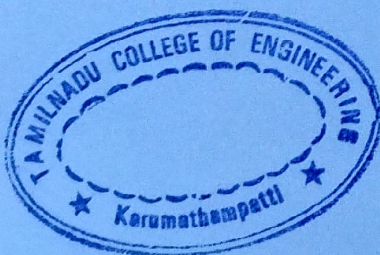

COMPOSITION OF FEEDBACK REVIEW COMMITTEE:

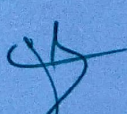

The feedback review committee is formed by 4 members who are as follows:

Chairman – Principal

Members - Three Head of Department.

The senior Hod will act as coordinator of the committee.

FEEDBACK REVIEW COMMITTEE - POLICY

PREAMBLE

The college is using the Students, Faculty, employer, alumni and parents feedback as a base to make improvements in the existing system after reviewing and analyzing it carefully. It is proposed to form Feedback Review committee to analyze the feedbacks collected from stakeholders, give report and suggest necessary actions to be taken to improve further.

OBJECTIVES OF COMMITTEE:

1. To assess the success of academic provision in relation to the expectations of student regarding curriculum.
2. To provide feedback to faculty members in order to improve delivery and content of the study subjects.
3. To significantly increase alumni interaction with the institution.
4. Fostering and keeping alive loyalty to the institution and creating concern for its welfare.
5. Inculcate exchange of ideas between alumni and students.
6. To provide students with the opportunity to comment on the quality of their learning experiences.
7. To assess the satisfaction of the parents with the curriculum and facilities in the college.
8. To find out the lacking points from the employers for betterment in future

COMPOSITION OF FEEDBACK REVIEW COMMITTEE:

The feedback review committee is formed by 4 members who are as follows:

Chairman – Principal

Members - Three Head of Department.

The senior Hod will act as co-ordinator of the committee.

Dr. M. KARTHIKEYAN, B.E., M.Tech., Ph.D

Weighs Old Tradition

ROLES AND RESPONSIBILITY OF THE FEEDBACK REVIEW COMMITTEE

1. The committee will discuss the analysis of the feedback received from the college within one month from the date of collection of feedback.
2. The committee will give suggestions to improve the quality and standard of the institution based on the feedback received
3. The committee will try to improve the teaching learning process and to improve the environment for the learning.
4. The committee emphasis on transparency in detailing and communicating the educational provision to be provided. Teachers, professional support staff and students are all expected to contribute to the development of good practice in teaching, learning and assessment through regular review of policies and practices.
5. The committee will assist to improve the accountability of the staff for the betterment of the learning environment.
6. The committee will take responsibility to motivate the stake holders to give effective feedback for the betterment of the institution.
7. The committee will have the responsibility of sending the report to the members who have given feedback.

The coordinator of the Feedback Review Committee is responsible to organize the meeting in time, and convey the committee resolution to all the staff involved within two days for its implementation. The coordinator will also send the resolution of the committee to the Governing Council for its approval in time.

Outcome:

By implementing the Feedback Committee Report, the overall performance of the institution will improve in 360 degree.

New Heights Old Tradition

The feedback analysis committee of the institution designs and collects feedback from its stakeholders to monitor and evaluate its performance quality on curriculum and Curriculum related issues. The feedback forms were collected from students, teachers, Employers and alumni. Students who offered feedback were from different departments of Tamilnadu College of Engineering.

The feedback targets following different content for different stakeholders.

- The feedback is targeted towards students and focuses on curriculum and related aspects such as quality, competencies, skills, and professionalism. It also takes into account the manner in which the teachers are delivering the curriculum.
- For educators, feedback focused on issues such as course relevance and needs, curriculum outcomes, linkage to course content and relevant reference materials, availability of reference materials in the curriculum, methodologies of program evaluation and implementation, etc.
- For employers, topics covered include communication skills, developing solutions to real-world problems, teamwork, creative challenges, organizational skills, learning new techniques and integrating technology into the work learned in the program.
- For alumni, it is aimed to obtain answers on curriculum relevance, the relevance of curriculum content in the context of current professional standards, and curriculum design in the context of developing self-directed learning and problem-solving approaches.
- For parents it is aimed to get inputs on the quality of education the students received and the level of preparation they had.

The feedback analysis committee of the institution designs and collects feedback from its stakeholders to monitor and evaluate its performance quality on curriculum and Curriculum related issues. The feedback forms were collected from Students, Faculty members, Employers, Alumni and Parents. Students who offered feedback were from different departments of Tamilnadu College of Engineering.

Feedback is aimed at various stakeholders that are following various content.

- The criticism is aimed at students and concentrates on the curriculum as well as related elements like quality, competencies, skills, and professionalism. It also considers the way that the teachers are presenting the material.
- The input for educators was mostly directed at topics such course relevance and needs, curriculum results, linkage to course content and pertinent reference materials, accessibility of reference materials in the curriculum, methodology of programme evaluation and implementation, etc.
- Communication skills, coming up with solutions for actual issues, teamwork, creative challenges, organizational abilities, learning new methods, and incorporating technology into the job learnt in the curriculum are among the themes covered for employers.
- It aims to provide responses to alumni regarding the relevance of the curriculum, the relevance of curriculum content in the context of contemporary professional standards, and the relevance of curriculum design in the context of fostering independent learning and problem-solving techniques.
- Inquiries from parents about the caliber of instruction and level of preparation their children got are sought after.

New Heights Old Tradition

The institution's feedback analysis committee develops survey questions and solicits feedback from its constituents in order to track and assess the performance quality of the institution's efforts in relation to curriculum-related concerns. Students, faculty, employers, parents, and alumni provided feedback forms, which were gathered. The Tamilnadu College of Engineering had students from a variety of departments who provided input.

Feedback is aimed at various stakeholders that are following various content.

- The feedback is targeted towards students and focuses on curriculum and related aspects such as quality, competencies, skills, and professionalism. It also takes into account the manner in which the teachers are delivering the curriculum.
- Feedback for educators concentrated on topics such curriculum results, course relevance and needs, links to course content and pertinent reference materials, accessibility to reference materials in the curriculum, methods of programme evaluation and implementation, etc.
- Communication skills, coming up with solutions for actual issues, teamwork, creative challenges, organisational abilities, learning new methods, and incorporating technology into the job learnt in the curriculum are among the themes covered for employers.
- It aims to provide alumni with information on the relevance of the curriculum, the relevance of the curriculum's content in light of current professional standards, and the relevance of the program's design in light of encouraging independent learning and problem-solving techniques.
- The purpose of this survey is to get feedback from parents on the quality of instruction and level of preparation received by the students.

The institution's feedback analysis committee creates surveys and gathers feedback from its constituents to track and assess the institution's performance quality with regard to curriculum-related issues. Students, teachers, employers, parents, and alumni were asked to complete feedback surveys. Several departments at Tamilnadu College of Engineering had students who submitted feedback.

Feedback is aimed at various stakeholders that are following various content.

- The comments are directed at the students and concentrate on the curriculum and related elements like quality, competences, skills, and professionalism. Additionally, it considers how the teachers are presenting the content.
- For Faculties, comments that were concentrated on topics such curriculum outcomes, course relevance and needs, connections to pertinent reference materials and course content, accessibility of reference materials in the curriculum, methods of programme evaluation and implementation, etc.
- For employers, key themes covered include teamwork, creative challenges, organisational skills, communication skills, generating solutions to real-world problems, learning new techniques, and using technology into the program's work.
- It aims to provide responses to alumni regarding the relevance of the curriculum, the relevance of curriculum content in the context of contemporary professional standards, and the relevance of curriculum design in the context of fostering independent learning and problem-solving techniques.
- The purpose of this survey is to get feedback from parents on the quality of instruction and level of preparation received by the students.

To track and assess the institution's performance quality with regard to curriculum and curriculum-related concerns, the institution's feedback analysis committee designs surveys and solicits feedback from its community members. The feedback forms were from alumni, employers, employers, teachers, and students. Students from the many departments at Tamilnadu College of Engineering provided input.

For various stakeholders, the feedback has distinct aims that follow different substance.

- The criticism is aimed at students and concentrates on the curriculum and related elements like quality, competencies, skills, and professionalism. It also considers the way that the teachers are presenting the material.
- When providing comments, professionals were particularly interested in topics like course relevance and needs, curriculum results, connections to relevant reference materials and course content, availability of reference resources in the curriculum, and methods for evaluating and implementing programs.
- Communication skills, coming up with answers to practical issues, teamwork, creative challenges, organizational abilities, learning new techniques, and incorporating technology into the job acquired in the curriculum are among the themes covered for employers.
- The goal is to provide alumni with information on the relevance of the curriculum, the relevance of the curriculum's material in relation to current professional standards, and the relevance of the program's design in relation to encouraging self-directed learning and problem-solving techniques.
- It is intended to solicit feedback from parents regarding the caliber of instruction and degree of preparation obtained by the pupils.
